Welcome to your new Dashboard!

1: Search for something (eg. your name)

2: Look at the result updating in real time

3: Add more things you want to stay informed about

Pssst.. You can even close this window and return later
and we will remember your searches.
But don't do that now! :-)

X HCI

No Results..

Maybe try serching for something else?

Like [design](#)

Suggestion are based on
co-occurency against other
users and bare frequency if
that fails

☒ HCI☐ design

A [commit](#) on Project Gemini by Alfred with comment "Adapted to new button design". A week ago.

The wiki page "[updated design guidelines for the button widget](#)" was updated by Jack. 12 days ago.

Maggie wrote on IRC: "we are working on a major breakthrough in the design of the application" in channel [#gemini](#). 14 days ago.

"Principles for Successful Button Design" has been [borrowed](#) by Jack. A month ago.

The X should be red and on the right side

The user clicks on the X to remove the topic

Links point to internal resources (wiki, blog, irc, library..) that are not part of this application
